

sensations

window & door range

Product Features At a Glance

The windows and doors in the Sensations range are renowned for their high quality materials. The Sensations quality captive bead gasket, a high security interlocking bead is extremely difficult to remove once glazed. Elegant, soft ovolo shaped aluminium is available in a choice of colours and finishes. The vent accommodates a variety of locking systems. We offer a range of glazing options, internal wedge gasket and concealed stainless steel stay for variable opening. An elegant ovolo internal frame offers high performance weather stripping prevents air and water ingress.

Colour Options

An inspiring range of highly versatile protective colour coatings for our Sensations aluminium windows and doors guarantee style and durability in any building project. From contemporary new builds to traditional period homes, the range of colours are specifically chosen to provide creative choice, flexibility and excellence. The Sensations range of windows and doors are available in all standard RAL colours, 110 textured RAL colours and four paint finish types – textured, matt, gloss and satin.

All paint finishes are subject to Senator Windows 15 year guarantee. Other paint finishes such as metallic and anodic are available on request (may be subject to additional costs and longer lead time.)

Sensations Aluminium Window & Door Range

Perfectly designed to conserve Warmth and Energy

By using a thermally broken aluminium frame with a polyamide bridge, windows and doors in Senators Sensations range have been designed to significantly reduce heat loss in your home. Polyamide material has a high resistance to heat transfer between the inner face of the frame (inside the room) to the outer frame (outside). The windows and doors are thermally efficient and this naturally reduces heating bills considerably.

Strength and Durability

This system provides homeowners with windows and doors of superior quality, and offers the distinct advantage of strength and durability. The aluminium sections within the windows and door structure ensure they are strong and robust, giving you peace of mind.

Elegant Slim Sightlines

Beautifully elegant sightlines are a proud feature of the windows and doors, enhanced further by ovolo, chamfered or square profile edge appearance. Additionally, homeowners have a range of colour options, which means having a wide choice of both finishes and colours externally and internally.

Comfort and style to suit your home

The Sensations range of windows and doors offer greater comfort, superior insulation, minimal maintenance, enhanced security and are beautiful to look at. They offer all you would expect from a high quality system, and more: peace of mind, and a sound investment in your property. Our unique style of windows and doors are available in a choice of colours and finishes.

Elegant & Secure - Sensations offer Peace of Mind

Sensations range of doors is designed to impress while keeping out the elements and unwanted intruders. They are visually sleek and elegant but underneath they are strong and robust. Sensations doors are designed for use as open out, open in, single or double doors, internally or externally beaded with a side light and low threshold options. Sensations doors are a high performance alternative suitable in high traffic or exposed areas where durability and reliability are needed. Our doors truly enhance the beauty of any home, they keep in the warmth and with a multi-point locking system they offer security and peace of mind. A must for any home.

Comfort, Superior Insulation, Minimal Maintenance

Sensations Performance Sliding Doors

A Sensations sliding door makes a real statement. The appeal is found in stunning glass areas, highlighted by bold aluminium sections styled with clean aesthetic lines. They work in harmony with the character of your home and the surrounding environment. The range of sliding doors is designed to deliver optimum performance and is tested to the highest standards thus guaranteeing reliability. The strong, thermally broken aluminium sections enable the creation of dramatic sliding sashes and large glass areas without reducing thermal or weather resistance.

Sensations sliding doors give optimum thermal and weather performance keeping your home comfortable whatever the season. The doors are breath-taking when closed. A focal point externally all the while forming a thermally efficient glass façade flooding the inside of your home with natural light, leaving you to enjoy the beautiful views. Modern and pleasing to the eye, the doors retain Senators renowned signature strength and durability in design.

The thermal performance of the aluminium sections is enhanced with Polyamide thermal barrier technology, enabling Sensations sliding doors to exceed performance requirements of current building regulations.

Sliding sashes will accept a range of glazing options, including double or triple glazed units up to 36mm. The Sensations sliding door range is available in a huge range of powder coated paint colours and finishes, including dual colour, realistic wood and metallic paint choices.

The option of multiple sliding panes offers a stunning glass façade and wider opening aperture. If you desire a wider than normal opening, Sensations folding doors have the option of utilizing a triple track system, allowing multiple sliders to open in the same direction at once, giving the potential up to two thirds opening aperture.

Peace of mind comes from knowing your home security is assured with high security multipoint locking mechanisms fitted as standard to master sliding sashes, with the additional security of internally glazed sliding sashes. The range of furniture includes traditional lever / lever handles. Multipoint hook locks are fitted as standard to opening sliders.

Sensations Folding Doors

- Style & Beauty for your Home

Beautifully designed and versatile, Sensations folding doors are a perfect option to transform your living room, kitchen, bedroom or conservatory- the choice is yours, and the options are limitless.

The modern aesthetic of a Sensations folding door adds beauty and finesse to any external aspect of your home. When closed, the folding door completes your home, offering a striking glass facade with attractive characteristics. Fold the sashes back, and reveal a stunning opening that draws the exterior ambience inside your home.

Sensations folding doors come with all the assurances you would expect from a quality designed product. Aluminium profiles are designed to give strength and durability: ensuring a structurally sound product. The doors require minimal maintenance and deliver reliable performance over a lifetime of use. Sensations folding doors open effortlessly, gliding on steel rollers allowing unrestricted thoroughfares and maximum use of space and light. Their signature smooth contours and clean lines create an attractive visual that will add real beauty to your home, whatever your taste or style. Sensations aluminium sections utilise the latest

polyamide thermal barrier technology. This advanced profile technology creates a thermal transmittance barrier between the cold outside and the warm inside, keeping your home warm and comfortable even in the coldest weather. The sashes can be glazed with a range of double or even triple glazed sealed units up to 36mm, and threshold options are available to give improved weather performance. Folding sashes can fold back internally or externally with a wide choice of sash configurations. For ease of access you do not have to open the doors 100%; open in the centre like French doors, or from the side like an entrance door.
